

IB DP Computer Science: Extended Essay Planning Portfolio

Page 1: Administrative Profile & Computer Science Registry

Student Name: _____

Extended Essay Subject: Computer Science: _____

Supervisor Name: _____

Target Algorithmic System/Architecture: _____

Computational Libraries/Datasets Selected:

Pre-Submission Checklist

- [] Topic focuses on algorithm analysis or hardware/software performance (not a simple coding project)
- [] Dataset size and origin are explicitly defined
- [] Test environment parameters can be standardized and replicated

- Pre-Submission Checklist**

 - [] Topic focuses on algorithm analysis or hardware/software performance (not a simple coding project)
 - [] Dataset size and origin are explicitly defined
 - [] Test environment parameters can be standardized and replicated

Page 3: Neural Network & Machine Learning Evaluation Mapping

Python Framework & Library Initialization Plan

Map parameters using Scikit-Learn, TensorFlow, or Keras:

Dataset Sourcing & Data Cleaning Workflow

Detail how raw datasets (e.g., UCI ML Repository) will be modified, filtered, and split into training/testing sets:
