

IB DP Design Technology: Extended Essay Planning Portfolio

Page 1: Administrative Profile & Design Technology Registry

Student Name: _____

Extended Essay Subject: Design Technology:

Supervisor Name: _____

The Product/Packaging/System Under Investigation:

Core Design Lens (e.g., Sustainable/Circular Design, Innovation Impact):

Pre-Submission Checklist

- ☐ Focuses on the relationship between new/existing technologies or sustainability principles
- ☐ Involves user-centered criteria or material science analysis

Additional Notes / Supervisor Comments:

IB DP Design Technology: Extended Essay Planning Portfolio

Page 2: Sustainable Product Lifecycle & Circular Economy Workspace

Product Lifecycle & Waste Mitigation Analysis Area

Map circular flow: Raw Materials -> Manufacturing -> Distribution -> Consumer Use -> End-of-Life (Upcycling/Recycling):

Product Lifecycle & Waste Mitigation Analysis Area

Map circular flow: Raw Materials -> Manufacturing -> Distribution -> Consumer Use -> End-of-Life (Upcycling/Recycling):

IB DP Design Technology: Extended Essay Planning Portfolio

Page 3: Primary Field Testing & High-Fidelity Prototyping Protocol

Fidelity Model Construction Specifications

Log physical properties, CAD dimensions, or digital simulation parameters:

User Field Testing & Feedback Loops

Design retailer interviews, customer surveys, and drop-test safety trials:

The Design Practice/Material Intervention

```
graph LR; A[The Design Practice/Material Intervention] --> B[The Target Industry/Market Sector]; B --> C[The Specific Design Criteria Optimized]
```

The diagram illustrates a three-stage process:

- The Design Practice/Material Intervention** (Green box)
- The Target Industry/Market Sector** (Yellow box)
- The Specific Design Criteria Optimized** (Green box)

Arrows indicate a sequential flow from the first stage to the second, and then to the third.

The Target Industry/Market Sector

The diagram consists of two rectangular boxes connected by a right-pointing arrow. The left box is yellow and contains the text "The Target Industry/Market Sector". The right box is light green and contains the text "The Specific Design Criteria Optimized".

The Specific Design Criteria Optimized

Finalized Design Technology Research Question Draft
